Pledge to Support Co-operative Marketing

Both the Republican and Democratic parties of the United States included 14th platform planks in support of co-operative marketing.

The Republican party pledge itself to give assistance to co-operative marketing associations owned and controlled by the farmers themselves.

The Democratic party pledge to support the provisions of the Agricultural Marketing Act, which will be promptly amended or modified as experience shows to be necessary in order to accomplish the object set forth in the preamble of that law.

The Democratic party pledge to support agricultural policy as follows: "We favor the restoration of agriculture, the nation's basic industry; better financed farm mortgages; the extension and development of farm co-operative movements; effective control of crop supplies so that our farmers may have the full benefit of the domestic market; the enactment of every constitutional method that will enable the farmers to receive for their basic farm commodities prices in excess of cost."

North-Western Grain Dealers' Crop Acreage Estimate

North-Western Grain Dealers estimate 1932 crop acreage in western Canada as follows: wheat, Manitoba, 2,497,000; Saskatchewan, 646,500; Alberta, 7,877,000; aggregate, 10,820,500. Oats, 5,476,900; aggregate, 1,634,700; Alta., 559,300; aggregate acreage, 6,670,900.

This compared with 1931 production of approximately 310,000,000 bushels, is 135,000,000 bushels greater. In the United States the decline in production is estimated at 175,000,000 bushels, or a total decline in North America of 39,000,000 bushels.

Crop Conditions in Russia

Latest reports from Russia spring wheat area reveal the fact that dry weather has been prevalent and that damage has resulted as a consequence. Broomfield, the British grain authority, expresses the opinion that if Russia has an average wheat crop this year she will be lucky. Private reports from Russia mention the damage from drought.

While attempting to drive a bull out of the garden, Mrs. Harry Nunnamaker, of Patricia, was attacked by the animal and gored and trampled to death about 8 o'clock Wednesday morning, Aug. 17.

The only witness of the tragedy was Mrs. Nunnamaker's little five-year-old son, who was with her when she was attacked.

The bull, an ancient month-old animal, was apparently a docile creature up until the time of the tragedy. It had broken through the garden fence, and Mrs. Nunnamaker, who was working in the garden, was attacked.

Before her marriage Mrs. Nunnamaker was Miss Leah Smith and taught school for several terms in Basano. Her many friends were shocked when news of the tragedy was received.

United States Wheat Crop Estimate
The United States Department of Agriculture estimate wheat production in that country at 72,887,000 bushels. This estimate was prepared at August 1. On July 23, Canada's wheat in store was 135,744,000 bushels compared with 110,742,430 the same date a year previous. Of the total in store on July 23, 1932, over 30 million bushels were western country elevators, 20 million bushels in terminals at Port William and Arthur, 17 million bushels in eastern export terminals, 4 million in the United States ports, 5 million in transit on the Great Lakes.

Nothing Funny About It
She insisted on taking innumerable frocks with her, and they arrived at the station loaded with baggage. "I wish," said the husband thoughtfully, "that we'd brought the piano!" "You needn't try to be sarcastic," came the frigid reply. "It's not a bit funny."

"I'm not trying to be funny," he explained, sadly, "I left the tickets on it."

THE PICTURES

The activities of a national radio broadcasting station form the background of the engrossing story told in "Are You Listening?" which will be shown at the New Theatre Thursday, Friday, and Saturday of this week, Aug. 18, 19, and 20.

The picture is based on the life of the famous "radio" behind-the-scenes editorials and does not touch upon the "radio" aspect of the story.

The machinations of "radio" journalism and the modern use of radio in the pursuit of criminals are most vividly set up in the stirring plot which concerns the momentous events which befell a radio personality writer who is accused of the murder of his henpecking wife.

The picture is said to be unusual in combining the diverse elements of tragedy, romance, and comedy. Most of the film's lighter moments taking place in the broadcasting station where such tricks of the trade as the "applause machine," "thunder chime," and "wind whistles" are amusingly exposed. The romantic side of the story is three-fold, concerning a trio of small town girls who come to New York to see life but find that the glamorous city has its share of pitfalls.

Additional interest is attached to this picture in that it introduces William Haines in his first dramatic role, giving the popular young actor a chance to prove what he can do with a serious dramatic situation, devoid of the wisecracking qualities of his past work. He is unusually strong cast also includes such well known film names as Madge Evans, Jean Harlow, and "The Purple Sage," is coming in all talking pictures from next week.

Thursday, Friday, and Saturday, August 18, 19, and 20.

A tale of love and larries woven into the west's most beautiful romance.
